

Mendham Township Elementary School
18 West Main Street, Brookside, NJ 07926
2006-2007 QAAR OBJECTIVES

Building Objective # 1:

By the end of June 2007, due to the implementation of a focused writing curriculum; increased instructional focus on rubric-driven, multi-genre writing prompts; and increased teacher professional development, there will be an increase of four (4) points in the district mean score for the 2006-2007 4th grade students in the area of writing as measured by the total number of points in that cluster on the New Jersey ASK 4. This year the district mean score in writing for our current third grade students on the New Jersey ASK 3 was 9.5 out of a possible 20 points.

Building Objective # 2:

By the end of June 2007, due to the implementation of a newly revised language arts curriculum; increased instructional focus on rubric-driven, multi-genre writing prompts; leveled literature program for guided reading; and increased teacher professional development, there will be a decrease in the number of 2005-2006 3rd grade students who scored "basic" on the NJ PASS 2 in Language Arts (18 total students) by 50% on the NJ ASK Grade 3 Assessment for Language Arts Literacy. The results on the Language Arts section for the NJ ASK 3 in 2006-2007 should reveal no more than nine students in the partially proficient range using the same cohort.
