Mendham Families

Join Mendham Patriots basketball this winter. Registration is open for the clinic, recreation and transition leagues. Registration will remain open until November 1.

Please check out our website at http://mendhambasketball.com/ for more information on each level and to begin the registration process:

**BOYS & GIRLS CLINIC (Grades K - 2):**
The Clinic Program is focused on the development of basic core skills and creating a foundation which can be expanded at future levels.

Primary goal for coaches is to create a fun and instructional environment where children can learn and enjoy the games. Typically Saturday morning.

**TRANSITION BASKETBALL (Grades 3 - 4):**
The Transition Program is designed to build on the skills learned at the clinic level. In addition to weekly Saturday clinics, players will also participate in weekly (Friday or Sunday) intramural games to introduce the competition dynamics and game rules of the sport.

Primary goal for coaches is to continue individual player development and foster a fun and lightly competitive environment

**REC BASKETBALL (Grades 5 - 8)**
The Rec Program is designed to incorporate a stronger level of competition for players, in addition to building individual basketball skills. Scoreboards and referees are used for each game, and wins and losses are posted in the standings section of our league website
