V. Superintendent's Report

> District Updates, News and Events

The MTSD transportation department under the direction of Ms. Margaret Hogan, visited MTES to teach our students important bus safety procedures. Students learned how to board and depart the bus safely, use emergency exits, and fasten seat belts properly. The students enjoyed the visit and were eager to ask questions of our MTSD bus drivers. Thank you, Mrs. Hogan, and our drivers for making these sessions fun and informative.

It was a full house at our annual Back to School Night Presentations. The evening consisted of meet & greets, welcome presentations, and staff presentations.

Congratulations to all of our athletic teams for a fantastic home opener. Boys' & girls' soccer, and boys' & girls' cross country all beat Long Valley. The field hockey team opened up against a very tough Peck team and played to a one to one tie. I am sure we will see them in the county tournament! Good luck to all of our coaches and players as we head into the fall athletic seasons.

All MTMS science and mathematics teachers wrote and executed lessons this week based upon the 5E inquiry methodology. Each teacher was formally observed teaching a 5E lesson and will be completing 5 more this year. 5E lessons are focused on a conceptual objective and have students actively learning to construct meaning for the day's learning outcome. The lessons were exceptionally well written, planned and executed this fall. Kudos to the math and science departments.

A handful of our aides at MTMS and MTES began Applied Behavioral Analysis training through Rethink Ed. Rethink is a provider that supports educators in several areas of professional development including ABA and autism. The training starts with online sessions at the basic and advanced levels of ABA principles, and once the online training components are completed, the staff will receive on the job training and supervision by a Board-Certified Behavior Analyst (BCBA). The end result is for staff to be RBT certified as registered behavioral technicians. This training and certification of our staff will not only assist with our current special services programming; it will also greatly support the development of future programs and services.
