

REGULATION

MENDHAM TOWNSHIP BOARD OF EDUCATION

OPERATIONS
R 8660/Page 1 of 1
PRIVATELY OWNED VEHICLES

R 8660 PRIVATELY OWNED VEHICLES

In recommending arrangements for pupil transportation to and from school-related activities the Principal in conjunction with the School Business Administrator/Board Secretary shall consider the type of activity, the total number of pupils involved, and the availability of appropriate vehicles. Groups of pupils, too small in number to make economical use of a Type I or Type II vehicle, may be transported in privately owned passenger vehicles driven by qualified school personnel, State employees and/or parents/guardians who are willing to provide transportation for district pupils to and from school-related activities away from their school of attendance. The decision to utilize a privately owned vehicle for said event will be determined in ample time for Board approval. Notification will be made to those families whose children will be transported using a privately owned vehicle.

Qualifications shall include:

- A. A valid driver's license from New Jersey;
- B. A private passenger vehicle of eight or fewer capacity, with a current New Jersey inspection sticker;
- C. Evidence of at least the statutorily required insurance coverage;
- D. District approval of activities involved; and
- E. Adequate supervision of pupils at the activity.

Issued: 25 February 2014
