

Mendham Township HSA

Mission Statement

H.S.A.'s mission is to enhance every child's potential by engaging and empowering both the administration and families to advocate for all children, cooperatively. Through our efforts, we strive to provide the most needed tools and assistance to both the elementary and middle schools in concert with the Board of Education to benefit our children, physically, mentally, socially, and academically. We advocate on behalf of our families to ensure their concerns and interests are being addressed with administration, strengthening our community's overall communication and securing the best educational experience for our children every day and in the years to come.
